“I enjoy designing a uniquely tailored, collaborative strategy to help each client achieve their goals. By listening closely and discussing the menu of options with clients, I am able to assist in resolving disputes in a thoughtful, cost-effective manner.”

Brianna Wellman focuses her practice on construction law. She helps clients navigate the complicated construction and design industry on matters related to construction financing, building, and completion. In addition to advising on transactional matters, Brianna has an intricate understanding of the Oregon court system which she brings to bear when representing clients in state and federal courts.

Before joining Miller Nash, Brianna gained valuable experience serving as a law clerk for the Honorable Steven Powers of the Oregon Court of Appeals where she drafted opinions in civil and criminal appeals. Brianna’s experience also includes serving as a legal extern at the Oregon State Legislature where she conducted comparative analyses of proposed Oregon legislation and other states’ laws. During law school, Brianna was a staff editor for the Willamette Law Review, a writer for Willamette Law Online, and a law clerk in the Civil Recovery section of the Oregon Department of Justice.
