**“I provide practical advice to help clients wade through a myriad of changing privacy laws and make sound business decisions. I encourage clients to take a proactive approach regarding privacy and security to minimize risk, enable business continuity, and foster increased brand trust.”**

Eva Novick is a Certified Information Privacy Professional (AIGP, CIPP/US, CIPP/E, CIPM, FIP, PLS) and leads the firm’s privacy & data security team. Eva advises clients, both business and individual, on complying with U.S. and international data privacy laws, and remediating and responding to data security incidents. She works closely with clients on compliance with state and federal privacy laws, including the California Consumer Privacy Act, as amended (CCPA/CPRA), and international laws, including the General Data Protection Regulation (GDPR). She also represents clients in privacy-related litigation, including defending and resolving class action claims involving alleged data breaches, website tracking technologies, and consumer protection violations.

Prior to private practice, Eva dedicated nearly two decades of her career to the Oregon Department of Justice (DOJ). During this time, she was able to gain a substantial amount of skill and expertise regarding matters of privacy, data security, and consumer protection. During her time with the Oregon DOJ, Eva led settlement negotiations in Oregon-specific and multistate actions and resolved over 400 investigations, which resulted in distributing over \$1 billion in restitution.

### Professional Activities

- Privacy Law Specialist (PLS), 2025
- Fellow of Information Privacy (FIP), 2024
- Certified Information Privacy Manager (CIPM), 2022
- Certified Information Privacy Professional (CIPP/E), 2022
- Certified Information Privacy Professional (CIPP/US), 2020

B.A., Brandeis University, 1999

### Bar Admissions

Washington, 2022  
North Carolina, 2021  
Oregon, 2004

### Court Admissions

U.S. District Court in Oregon

- IAPP, Portland KnowledgeNet, Chapter Chair, 2023-2025

## Representative Experience

### Privacy and Data Security

- Drafted and updated clients' website privacy notices and terms of use to ensure compliance with relevant privacy and data protection laws.
- Drafted and negotiated data processing addenda in vendor agreements, such as SaaS agreements, to comply with U.S. laws and international data transfer requirements.
- Analyzed privacy and security risks in M&A transactions to protect purchaser and negotiate appropriate contractual terms and purchase price.
- Assisted clients in determining whether a security incident is a reportable data breach and, if so, provided required notification to regulatory agencies and affected consumers.
- Assisted clients in a broad range of industries—from education to financial services to health care--analyze applicability of privacy laws and design compliance framework.
- Drafted disclosures for new initiatives, including for text message marketing campaigns and for the use of novel technologies that capture customer data or employee data.
- Drafted and updated internal policies and procedures to assist clients with implementing a privacy program.
- Advised clients, negotiated settlements in disputes, defended clients in litigation, and initiated litigation to zealously represent clients' interests in various privacy-related matters, such as business email compromise, wire transfer fraud, and website tracking pixels.

### Artificial Intelligence

- Drafted artificial intelligence use policies to guide employees on acceptable use of AI tools.
- Negotiated vendor agreements to protect clients' data and their customers' data when vendors incorporated the use of AI tools.
- Assisted clients in understanding and mitigating legal risks pertaining to emerging technologies, such as generative artificial intelligence.
